MANAGED MEDICAL SPECIALTIES

MEDICAL GAS SHUTDOWNS

Equipment and Services

Equipment - We supply all necessary equipment for small or large shutdowns. Including specialty equipment, regulators, manifolds, liquid systems, vaporizers, cylinder carts/ stands, components and high-pressure hose assemblies.

Services - Our shutdown team consists of *formally trained* professionals with *extensive backgrounds* in both the clinical and mechanical aspects of Medical Gas Systems. We can provide your facility with either technical support or a complete team to coordinate and perform the shutdown from the initial planning to the final certification.
